

# A BUILDING MATERIAL COMPANY (US)

## CHALLENGE

- Wanted to start an outsourcing development and wanted to protect personal information of employees

## DRIVERS

- To protect employee and employee dependent information so that it cannot be accessed on their Oracle ERP
- To mask incoming flat files from banks or credit card companies the exact same way so that it can be imported to testing processes or nonproduction databases

## MENTIS SOLUTION

- Successful masking of data in Oracle ERP and Flat files
- MENTIS was able to mask flat files in the same way that they came from banks and hence the client was able to test these files in the anonymized environment

## SUCCESS STORIES

- MENTIS successfully anonymized sensitive data and facilitated outsourced development

## CUSTOMER SINCE

2017

## INDUSTRY

Manufacturing
